## ABSTRACT

With the advent of the era of global knowledge economy, education has become the main power source of modern economic development, countries all over the world happen to focus on the development of education, improve the quality of the whole people, education for life has become a global trend of social development. Promoting the development of education has become the golden key to open the door of knowledge economy era. So-called knowledge economy, is based on knowledge and information on the basis of the production, distribution and utilization of new economic form, to their knowledge, intelligence and proprietary technology as the main input form, is a kind of education as the source, continuous innovation and sustainable development of economy, intellectual resources are its backing, high-tech industry is the backbone of it. Therefore, the key factor of the development of knowledge economy is knowledge, and education, which undertakes the learning, dissemination and reproduction functions of knowledge, undoubtedly becomes the factor most closely related to the development of knowledge economy.

In the context of the vigorous development of the after-school education and training industry in China, scholars' research focuses on the phenomenon of after-school education and training, the status quo, problems and development of the after-school education and training industry, and few empirical investigations and studies on educational institutions engaged in after-school education activities. In this paper, I tried to start from the perspective of specific off-campus education and training institutions and practitioners, through the investigation and research of the specific operation and management status of training institutions and their existing problems, so as to see the big picture in a small way, so as to put forward reasonable suggestions for the development of the off-campus education and training industry in Taiyuan.

**keyword:** Education and Training institutions, Quality education, Taiyuan EF Education
